

A Stores' Guide to Baskerville:

Designed for New Horizons

Why recommend a Baskerville muzzle?

Designed dog-first

Our humane muzzles allow the dog to pant, drink and receive treats freely. Ideal for training and daily use.

Designed for safety

Our unique design provides an advanced bite protection and peace of mind for dogs and people around.

Designed for a custom fit

Our TPR (thermoplastic rubber) basket is reshapable in hot water for an optimal fitting.

How your muzzle can help

Did you know?

Muzzles are not only for dogs that have a bite history or that are aggressive, they can be crucial for vets and grooming visits. One of the main reasons for muzzling is to prevent food scavenging and wound licking.

Food scavenging

Vets, new situations or people

Busy places or public transport

Wildlife scavenging

Retraining aggressive dogs

Wound Licking

Strong and secure TPR material, for safety in all situations

The design ensures dogs can pant and drink freely

Lockable neck strap clip for added security

Removable head strap for improved fit and security

Lightweight nose padding for extra comfort

Available in sizes 1 - 2

Muzzle Training Steps

Step 1: Introduce the muzzle positively

Let your dog sniff and explore the muzzle freely. Reward any interest with high-value treats to build a positive association. Keep sessions short and stop before your dog loses interest to ensure it stays fun.

Step 2: Encourage nose placement

Place treats inside the muzzle to encourage your dog to put their nose in voluntarily. Use soft, spreadable treats (like peanut butter or cheese) to keep their nose inside longer. Repeat until your dog is comfortable.

Step 3: Add the straps

While your dog's nose is in the muzzle, gently bring the straps behind their head and buckle them. Adjust the neck straps so they are snug but not too tight. Keep rewarding and make sure the process stays fun and stress-free.

Step 4: Build duration and confidence

Gradually increase the amount of time your dog wears the muzzle, rewarding them for calm behavior. Keep training sessions short and positive.

Step 4: Transition to real use

Once your dog is comfortable wearing the muzzle indoors, begin using it outside in different environments. Continue reinforcing positive experiences with treats and praise.

Shape your muzzle

Warm

Warm the muzzle basket in hot tap water for 2 minutes.

Shape

Shape the muzzle basket to suit your dog.

Cool

Place in cold water to lock in shape.

Fit

Check for fit. Repeat shaping as required.

Anti-scavenge guard

Sizing tables

Length Measurement

Measure the distance from the tip of the nose to the base of the nose just below the eyes. The tip of the nose should not touch the muzzle.

Circumference Measurement

Measure around the circumference of the widest part of the nose, usually just below the eyes.

Breed recommendations are a guideline only as individual muzzle sizes may vary by dog. We recommended you measure your dog to ensure the right fit.

Baskerville ULTRA & INVISA

Size	Length	Circumference	Size	Typical Breed
