## The BRIG® Safety Leash

The Halti BRIG® Safety Leash is designed for **large, powerful** dogs, prioritizing safety, comfort, and control on every walk. The new BRIG® clip **withstands up to 750lbs of force** and is 1.5 x stronger than a standard trigger clip. Combined with 2 grab handles for close control, this is the ultimate leash for strong dogs. Available in 4 traffic light colors to match your dog's style and temperament.

### Features of the BRIG® Safety Leash

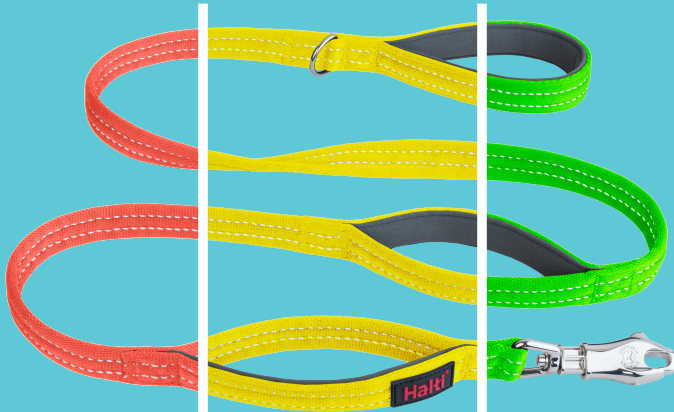

## Designed for Control. Built for Comfort.

For added convenience, the Halti BRIG® Safety Leash includes a D-ring at the base of the handle, perfect for wearing the leash crossbody when your dog is off-leash or for attaching poop bags. Both handles are padded with soft neoprene for all-day walking comfort, while two strategically placed close-control handles allow for instant restraint when needed – ideal in busy areas or around distractions.

### Traffic Light Colors

Our color-coded leash system is a simple yet effective way to communicate your dog's temperament.

**Coral:**

# Introducing the BRIG<sup>®</sup> clip

The next generation in leash safety.

Can withstand up to 750lbs of force

Compatible with a variety of harnesses and collars

Anti-tangle mechanism

1.5 x stronger than a traditional clip

The BRIG<sup>®</sup> clip is also ideal for dogs living near sand or dirt. Its enclosed mechanism is designed to prevent debris from getting in, making it safer and more reliable than standard trigger clips, which can jam or accidentally release when clogged with grit.
